

AMANWANA

AMANWANA KIDS

Amanwana provides a wonderful adventure playground for children and a marvelous opportunity to educate them on the wonders of mother nature, both above and below sea level. We have a number of activities for kids to enjoy...

FISH FEEDING

Ask one of our beach boys for a bread basket and spend an afternoon feeding the fish from our guest jetty. You will be amazed by the activity it creates and the variety of fish that appear for the feast!

SANDCASTLE BUILDING

Together with one of the beach boys make a special sandcastle to show off to your family and friends! Buckets, spades and equipment are all available from the beach boys.

KIDS DVDS

A selection of DVDs are available to watch in the evening in our dive center. This provides great entertainment while parents can enjoy a relaxing and quiet dinner. DVDs range from films to cartoons and children's underwater documentaries.

HAIR BRAIDING

One of our spa therapists will give you a special holiday hair-style to remember! But remember to get permission from your parents before doing this!
