

nirjara

Nirjara, Sanskrit for "waterfall" is cocooned within a private enclave surrounded by rice terraces, tropical forest, a meandering river and private waterfall. A haven of serenity, the resort is mere minutes from Bali's picturesque Tanah Lot temple, a revered sanctuary for followers of the Hindu faith. Only 1 KM from Pantai Kedungu, a stretch of volcanic sand beach offering several surf breaks for beginners and advanced surfers alike, Nirjara is secluded enough to offer a truly relaxing experience yet only 15 minutes from Canggu, 30 minutes from Seminyak, and one hour from the airport.

River Pavilion

Nirjhara offers a collection of 25 Villas including River Pavilions, Canopy Suites (contemporary tree houses), Two Bedroom Pool Villas and an exclusive 2-bedroom Villa named The Residence. In line with the resort's stance on sustainability, the entire property combines recycled and reclaimed wood, natural stones from the archipelago, traditional roof shingles to preserve a connection with the outdoors, and exterior cladding and decking made from re-engineered rubber tree wood. The villas are styled with clean lines, earth tones and decorative accents chosen solely from artisans known to exhibit exceptional levels of craftsmanship.

Each room features high-end amenities such as a 49" TV with complimentary video on demand content, a Bluetooth speaker, tea and coffee facilities, naturally-dyed, hand-woven bath robes, a fully stocked gourmet bar and unique, hand selected artworks from emerging local artists. Guests will also get to choose their own bathroom amenities created exclusively for Nirjhara, using pure and naturally sourced ingredients.
