

the
Tri Hita Karana

philosophy of life

In Bali, the concept and philosophy of life is called 'Tri Hita Karana', which literally translates as the 'Three Causes of Happiness'. The philosophy manifests in three elements that describe our relationships to Human, Nature and God. We are proud to incorporate the principle in our concept and resort:

**Life, Purity, Serenity,
Healing and Cleansing.**

the three elements _____

Parahyangan

Creates the awareness that each individual is part of God, and that there is God inside of each one of us. Further, it describes that we all are a part of Mother Universe. In other words: We are the Universe.

Palemahan

Represents a relationship between humans and nature. Human take from and shall give back to Mother Nature. Without giving back, humanity will only drain nature, thus affecting the future life of each and every one of us.

Pawongan

Describes a harmonious relationship amongst human beings. This wisdom directs us to believe that we are all one soul of the universe. This means if we hurt someone, we also hurt ourselves and if we do good to others, we do good to ourselves.
