FOUR SEASONS
RESORT
BALI AT JIMBARAN BAY

Timeless Balinese Village

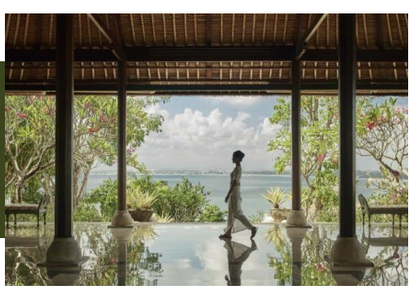

Feel the pulse of Bali the moment you arrive at Four Seasons Resort Bali at Jimbaran Bay - a beachfront sanctuary where every one of 156 villas comes with its own pool, set it its own walled garden, and your own slice of paradise.

Set on a sweeping headland above three miles of golden sand, the Resort unfolds like a Balinese village: traditional thatched-roof architecture, hidden sun terraces, and pathways that wind past temples, shrines and lotus-strewn water gardens. Here, culture isn't observed - it's lived.

Evenings begin at TELU, where Bali's most inventive bartending team shakes zero waste cocktails in a bar built entirely from upcycled treasures, the hum of conversation rising with every round of bar bites. By day, roll up your sleeves at Jala Cooking Academy, where the legendary Chef Surya turns market-fresh ingredients into stories you can taste.

At the reimagined Healing Village Spa, wellness takes on new dimensions as pioneering light and colour therapies are offered, a state of the art Pilates Studio and a cutting-edge Recovery Zone designed to restore body and spirit alike. Meanwhile, the Umah Rare Kids Club plants seeds of wonder, inviting young explorers to fall in love with the island and learn to protect it.

Opened: *June 1993*
General Manager: *Didier Jardin*

Did You *Know?*

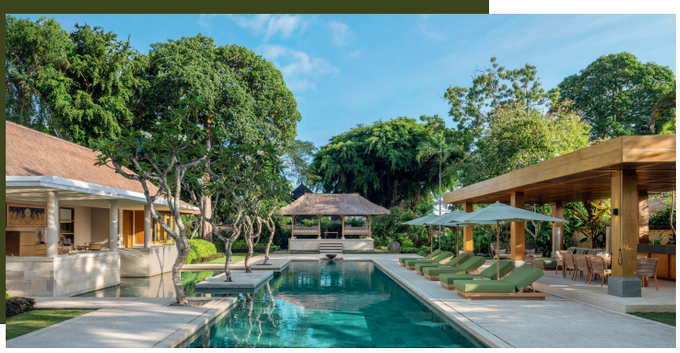

- The resort was carved from rock. 70% of limestone used for villa walls, lanes and landscaping was quarried on-site
- We have 200 species of plants, 3 hectares of vegetable gardens and over 1,500 handcarved stone statues
- The resort features over 300 palinggih, or Hindu shrines, reflecting Balinese culture, including one dating back to the 15th century
- The Historical Temple in the heart of the resort has a shrine dating back to 17th century –preserved as part of Temple's construction

Accommodations

Set within seven distinctive Village Squares, all pool villas are attended by dedicated Village Chiefs, delivering the warm and genuine hospitality for which Bali is renowned. Contemporary Balinese décor complements stunning views and modern comforts, while each villa features spacious living areas, luxurious bathrooms, and the signature Four Seasons Bed for an exceptional night's sleep.

Cultural Discoveries

Connect with the heart of Bali through immersive experiences guided by resident priest Ajik Ngurah and Cultural Ambassador Ni Ketut Swartini (Ibu Atik). Through ceremonies, blessings, hands-on craft workshops and cultural tours, guests are invited to explore the island's rich traditions and enduring way of life.

Sundara

Soak up the chic vibes of Sundara, a sophisticated beachfront dining destination on Jimbaran Bay. This all-day lifestyle venue combines culinary craftsmanship with magical sunsets, modern international cuisine and the signature Sunday Pink Brunch. Named after the Sanskrit word for “beautiful”, Sundara lives up to its name with sparkling ocean views from the al fresco terrace, a 57-metre infinity pool, one of Bali’s longest beachfront pools, and the elevated Mezzanine balcony.

Jala

Watch our Jala team cook their favourite local recipes at a nightly à la carte dinner. The seafood-themed menu is inspired by and sourced from Jimbaran’s famous fish markets. Savour dishes such as fresh fish cooked pepes-style, seafood salad and grilled prawns in Balinese spices. Local flavours, cosy ambience and premium quality define this Balinese dining experience.

Alu

A casual poolside café overlooking Jimbaran Bay, Alu serves a healthy and flavourful menu featuring Buddha bowls, poke, street food favourites and sharing platters, alongside indulgent “cheat day” treats developed in collaboration with a nutritionist.

Taman Wantilan

Celebrate the craftsmanship of our culinary team at Taman Wantilan, where our brigade of specialty chefs cook up a spread of Asian and Western cuisine at open show kitchens. Experience interactive dining with made-to-order dishes delivered directly to your table.

TELU Bar

Celebrate modern mixology at TELU while maintaining a deep connection to Bali’s heritage, environment and people. TELU derives its name from the Balinese word for “three,” and symbolizes the harmony of nature, people and soul. Choose from three series of sustainably minded cocktails and mocktails, with proceeds supporting three local charities.

TropicSurf guide Blake McKinnon knows Bali's breaks inside-out. He offers surf lessons right in front of the resort, boat tours to get the best waves while avoiding the crowds, and even heli- surfing for those who dare!

Healing Village Spa

The Healing Village Spa is a wellness portal where ancient wisdom illuminates modern ways and physical treatments inspire metaphysical transformations. Submit to Bali's magic and our team of healers' expertise via rituals that honour timeless traditions and emerging spiritual awareness.

Rooted in the Balinese philosophy of Sekala; the seen, physical world. Our signature Sekala Retreat invites guests to restore harmony through body-led healing. Combining time-honoured therapies with mindful movement, contrast treatments and energy work, this immersive experience reconnects guests to their physical presence as a pathway to inner clarity and balance.

Pilates

Tap into a profound sense of stability and strength and enjoy a fullbody workout with private Pilates classes in Jimbaran Bay's modern, fully equipped studio. Equipment includes reformer, cadillac, stability chair, ladder barrell, balls, bands, and more while classes are taught by our Pilates professionals who customize every session to your unique needs.

Wedding & Event

With a variety of private venues spread across 14 hectares of gardens, the resort is ideal for small executive retreats, high-end incentive events and exclusive occasions for groups of up to 240. Dream destination wedding venues include Bali's Longest Water Wedding Aisle (57 metres) and the ocean-edge Gili Jimbaran island.
