Jala

The seafood-themed menu is inspired by and sourced from Jimbaran’s famous fish markets. Savour dishes such as fresh fish cooked pepes-style, seafood salad and grilled prawns in Balinese spices. Local flavours, cosy ambience and premium quality define this Balinese dining experience.

JALA COOKING ACADEMY
(available Mon – Fri from 9:00 AM – 1:00PM)

Join Chef Surya for a tour of historic Jimbaran fish markets and watch the local fishermen unload the morning's catch from their traditional jukung boats, before returning to Jala.

Enjoy hands-on learning in a state-of-the-art facility and discover secret local cooking techniques. Other regional Indonesian classes are also available including Sumatran, Javanese and Sulawesian menus.

Enjoy nourishing Buddha bowls, poke, Asian street food and sharing platters, alongside a selection of indulgent treats for a little something extra between swims.

Sundara

Inspired by Jimbaran’s rich fishing heritage and traditional beachfront barbecue culture, Sundara brings together vibrant coastal dining, open-fire cooking and oceanfront views.

As the day unfolds, enjoy relaxed beachfront lunches, refreshing cocktails and gelato beside Bali’s longest beachfront pool.

As evening falls, discover bold flavours shaped by wood, smoke and fire, complemented by golden-hour sunsets and a lively atmosphere. On Sundays, gather for Pink Brunch, a signature beachfront dining experience overlooking Jimbaran Bay.

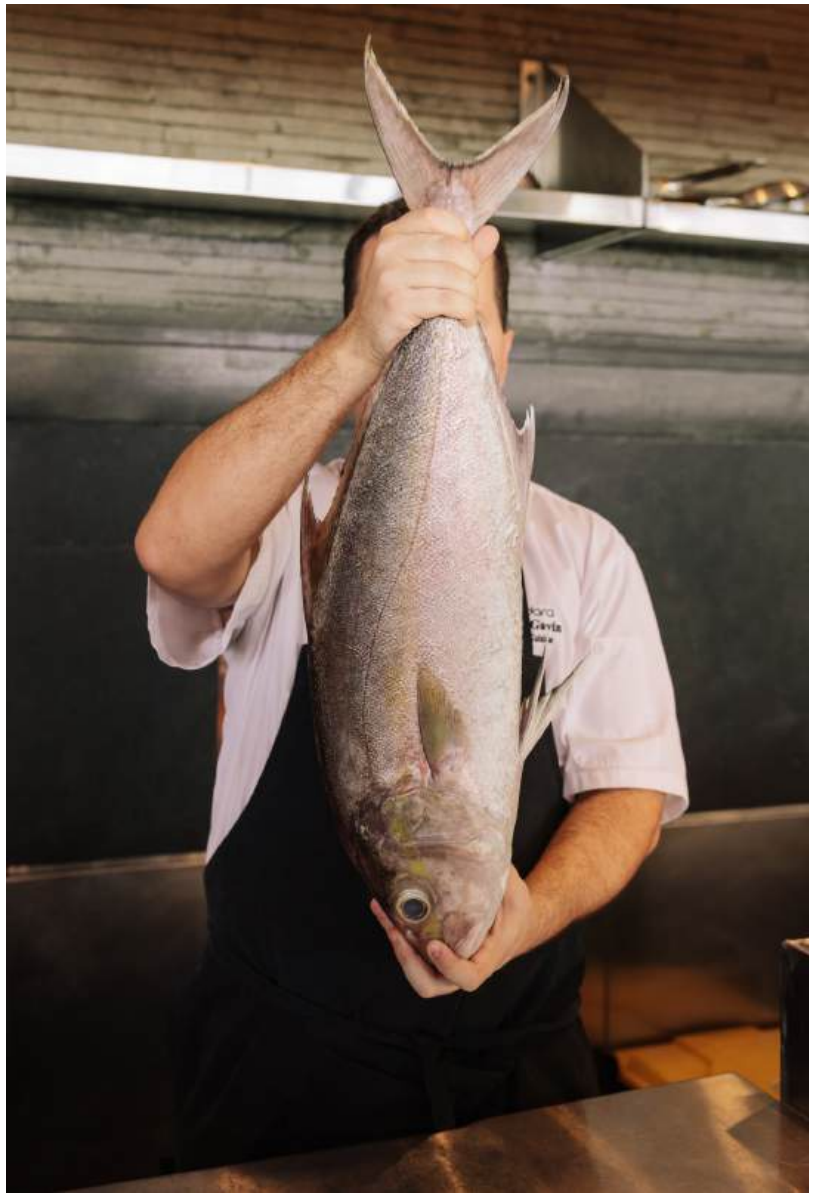

Sunday Pink Brunch

Life’s rosier by the ocean. This playful new brunch concept features pink-hued seasonal dishes, indulgent seafood, and a partnership with Whispering Angel Rosé.

Served with a splash of beach club energy, it’s unapologetically Instagrammable and designed for leisurely afternoons with friends.

Chef's Table

Chef's Table honours Jimbaran's fishing village heritage through whole-fish butchery and hyper-local ingredients: every part of the catch, from crispy skin to marrow-rich bone, is respected and reimagined in a story of eco-conscious cooking.

The journey begins with a Head-to-Tail, Heart-to-Table gathering followed by an Aperitif and Canapés at TELU then move to Sundara for the Chef's Table dinner.

Telu

Celebrating Bali's age-old traditions and natural resources, the team reveal how – with local ingredients, ancient techniques and a bit of imagination – a cocktail can become the ambassador of sustainability.

Our Zero Waste Bar Workshops will have your foraging, cooking, mixing and shaking your way to you next cocktail, and give you a few recipes and eco-tips to take home.

Classes take place at TELU, our aromatic herb and cocktail garden made from 100% upcycled materials, and featuring an arak cellar where the bar team has revived the ancient practice of claypot-ageing to produce beautifully balanced infusions.

TELU Bar open from Wednesday to Sunday 05:00 PM – midnight

Workshop available from 3:00 PM – 4:00 PM

Wellness

Healing Village *Spa*

Welcome to the Healing Village Spa at our wellness Resort in Bali Jimbaran, where ancient wisdom illuminates modern ways and physical treatments inspire metaphysical transformations.

Submit to Bali's magic and our team of healers' expertise via rituals that honor timeless traditions and emerging spiritual awareness.

The Illume Room

Our cutting-edge Illume Room draws on the latest technologies and the science of the body's 50 trillion cells to offer a total immersion into light, sound and colour frequencies for balance and bliss. Bali's first 'Surround Sound Spa Suite', The Illume Room is sealed from outside sources of light to maximise the powerful colour therapy healing.

A heated quartz-sand bed made of crushed crystals combines with surround sound technology and seven alchemy crystal singing bowls to add to the high vibrations. Working on the body's electromagnetic field, our powerful treatments stimulate inner healing responses while inviting every cell to thrive for true holistic harmony.

Longevity Garden

Create a Balinese-style steam room hammam alone or with a partner with local nourishing coconut soap and pumice. Use nutrient-rich volcanic mud body masks combined with an infrared mat for mineral magic, followed by a cleansing shower and three-minute ice tub immersion to release endorphins, tighten pores, reduce muscular recovery time and invigorate from head to toe.

A serene purifying space for individuals or couples.

Antigravity Yoga

AntiGravity® Yoga is a dynamic and groundbreaking "flying" practice that combines athletic strength with the motion of dance. It was created by a group of gymnasts led by world-class athlete and Broadway dancer Christopher Harrison.

It’s great fun and surprisingly easy to practice, offering an abundance of therapeutic benefits – from bringing relief from tension and stress to encouraging blood circulation, lengthening the spine, and improving flexibility and strength.
